

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph on page 5, line 2, to page 5, line 3, as follows:

Fig.6 is a perspective view of a cylindrical body before it is tucked up and rolled back into a disc-transfer roll according to a fourth embodiment of the ~~resent~~ present invention;

Please amend the paragraph on page 5, line 15, to page 5, line 17, as follows:

Fig.11a is a longitudinal section of the roll-and-axle having a shaft inserted in the hollow axle; and Fig.2 11b is a similar longitudinal section illustrating how the roll is deformed when a disc hits and pushes its circumferential edge against the roll.
